First Movement of Service Excellence

Sonata POS is a sophisticated front office Touch Screen Point of Sales System for businesses from Ticketing Sales such as entrance ticket to amusement park, museum, other tourist attractions to registration/enrollment of events such as seminars, workshop, etc. till F&B outlets sales operations. It integrates seamlessly with ASDION™ Acclaim to provide a complete front and back office scalable enterprise solution.

Scalability

System Scalability is crucial in any business that is growing. A business could start from the small with 1 terminal and expand rapidly to multiple outlets including overseas. ASDION™ solution ensures end to end operation flow

Promotion and Discount Schemes

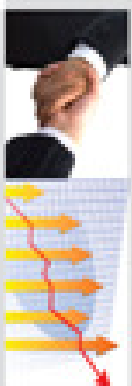

Sonata offers very diverse discount and promotional options based on a scheduled basis including item level and all level in addition. Promotions/Schedule Discount (eg. Happy Hour (40%)), Lady's Day, etc. can be setup in advance.

Retain & Reward Customers

System's Membership based, F&B operations or outlets with Loyalty/Reward programs will find integration with SONATA an excellent option. ASDION™ applications have also extended their support to include sales of the air seat used technology.

- Membership Status Online Verification
- Online Display of Member Profile/Signature
- Loyalty Award & Redemption Programs

Design to Grow with your Business | Optimize Operations Through Innovation

PROPERTY - A full integrated Hotel Property Management System.
ACCLAIM - An Ultimate Financial Solution Supporting your Business Growth.
SONATA Loyalty Membership System, For Customer Loyalty and Retention Programs.

Ticketing Function

Integration of Sales and Training function to get another useful enhancement in Sonata to support businesses with seasonal products. SONATA provides complete Training functionalities from setup, getting, sales to final selling. Tickets can be printed on paper card with barcodes or encoded on magnetic, NFC or smart cards. An option to interface with external turnstile equipments is available for larger access control and user frequency analysis.

Marketse Guest Experience

Ease of Reservation (Payment, Payout, Status) Tailored to your Customers Preferences and Table/Fruit and Alert Users from Ordering to Serving Process. POS Models Ordering and Self-Services Ordering.

Manage Your Customer's Events and Banquets Requirement Effectively

Event Booking Scheduling, Add-on/extra Table List, Resource Planning, Menu Caching, Graphical Table Management, Banquet and Event, P.M. Analysis.

Dynamic POS Reporting: Drag, Drop and Drill

A good number of reports catering to both Operations and Management Level including Audit Trail, Sales Summary By Account/ Stock/Shiftout, etc. are included. All reports can be exported to Excel, PDF, CSV, etc. For further analysis, Summary data can be drilled to Supervisor's mobile via sms. At enterprise level, operations may opt for OLAP tools to analyze existing data and predict future trends / scenarios.
